Clean and simple website to download & install the app

Step 1

Copy link to the news article into the app & run the check with one click

Step 2

How the app checks credibility:

1) gets 'n' articles about the same topic
2) checks their date
3) assigns to a category
4) check their source

Criteria:

1) source domain (if one of verified sites, with credibility weight)
2) publication date
3) number of similar articles published

Outcome:

Validity of the info is calculated automatically, based on predefined criteria.

The user is provided with fake possibility scoring.

Break the Fake is simple, easy to modify, open to further development.
